

Flymo Lawnrake Compact 3400

Powerful electric lawn rake with unique compacting collection box. Removes moss and thatch for a healthy lawn

Removing moss and thatch from your lawn is essential for healthy grass growth and a neat and tidy looking lawn. The Flymo Lawnrake Compact 3400 is the quick and easy way to scarify your lawn. Its unique design enables the Flymo Lawnrake to gather and compact moss and thatch in its collection box so that you have to empty it less. Featuring a large 34 litre collector, you can see when the box is full through its unique Vision window reducing the need to stop and check. Designed for easy storage the Flymo Lawnrake can be folded down and store neatly away with a storage height of only 46cm. The Flymo Lawnrake has 6 raking heights, which can be adjusted using a single lever. These heights vary from -5mm which allows the electric rake to scratch below the surface of the lawn to +8mm above. Replacement metal tines for this electric lawnrake can be purchased on the Official Flymo Shop. Search for the part number: FLY058.
